Le président argentin Macri donne son feu vert à l'achat des Super-Etendard

2018 - 05 - 15 - www.latribune.fr

Le président argentin Maurici Macri a donné son feu vert à l'achat des cinq Super-Etendard destinés à la marine pour un montant estimé à 12 millions d'euros environ, selon nos informations. Pour autant, les Argentins n'ont toujours pas versé l'argent pour prendre possession des appareils, qui sont pour l'heure inaptes au vol. L'opération serait imminente, selon nos informations. Une fois les Super-Etendard payés, les Argentins vont ensuite assumer les coûts liés à l'enlèvement, au transport, à l'emploi et à l'entretien des cinq appareils ainsi que de leurs équipements (rechanges, bancs de tests, valise de test, des équipements, des outillages, un simulateur...), dont huit moteurs ATAR 8K50, et de leur documentation. Ces appareils sont actuellement basés sur la base de Châteaudun.

Le contrat a été signé en février mais déjà Paris attendait début mars l'acompte du paiement des cinq appareils. C'est lors de la visite à Paris de Mauricio Macri le 26 janvier dernier, que la France et l'Argentine avaient signé un accord "pour la vente de cinq Super Etendard modernisés et de leurs équipements aux forces armées argentines", avait alors déclaré Emmanuel Macron lors de la...

Lockheed gets $1.4B contract for F-35 sustainment

2018 - 05 - 30 - www.defensenews.com

Lockheed Martin on Monday won a $1.4 billion contract to sustain the global F-35 enterprise for the U.S. military and international customers. According to Lockheed, the contract provides for “air system maintenance; pilot and maintainer training; depot activation; sustaining engineering; Automatic Logistics Information System (ALIS) support, data analytics and predictive health management; and supply chain logistics” for all U.S. and international F-35s through April 30, 2019.

Of the $1.4 billion sum, about 73 percent will be paid by the U.S. Marine Corps, Air Force and Navy, while the other 27 percent will be covered by international customers. The cost of sustaining the F-35 has been a growing concern for leaders across the Defense Department, from F-35 joint program executive officer Vice Adm. Mat Winter to Ellen Lord, the Pentagon’s undersecretary of defense for acquisition and sustainment. Bloomberg...

L’hélicoptère d’attaque Tigre prêt à rugir au-delà de 2040

2018 - 05 - 07 - www.latribune.fr

Bonne nouvelle pour Airbus Helicopters et MBDA. La ministre des Armées Florence Parly a lancé lors d’un comité ministériel d’investissement, qui s’est tenu le 2 mai dernier, la phase d’élaboration du programme d’hélicoptère “Tigre standard 3” sur la base d’une coopération européenne, notamment avec l’Allemagne.

Véritable rénovation à mi-vie, ce programme permettra de maintenir le système d’armes Tigre “au-delà de 2040, de l’intégrer dans les systèmes de combat futurs, de développer ses capacités de combat collaboratif et de moderniser ses capacités offensives”, a expliqué lundi le ministère des Armées dans un communiqué. Un parc de 67 Tigre HAD opérationnel fin 2025 Les 67 hélicoptères Tigre HAD, dont le premier appareil est entré en service en avril 2013, seront tous opérationnels à la fin de la future loi de programmation militaire (2019-2025), contre 32 début 2019. L’actualisation de...

US Navy receives new electronic warfare environment for its F-35 jets

2018 - 05 - 12 - www.c4isrnet.com

Northrop Grumman has delivered a new tool to the U.S. Navy that will allow the service to test its F-35s in a dynamic electronic warfare environment that can recreate mission-like conditions, the company said. Described by the firm as the “most sophisticated test environment” the company has ever created, the environment consists of three key elements: The Combat Electromagnetic Environment Simulator or CEESIM, which simulates multiple…

Indian Air Force: Israeli super radars set to give desi LCA fighter jet enhanced combat capability

2018 - 05 - 10 - economictimes.indiatimes.com

The home grown Light Combat Aircraft is set to be equipped with Israeli super radars that will give it the combat edge to engage multiple air and ground targets simultaneously. Israeli firm ELTA is likely to shortly bag an order for a new set of AESA radars for an air force order of 83 LCA Mk 1A jets. The Israeli firm appears to have beat off competition from French firm Thales...
