

Expanded H-60 support deal could serve as new model

2015 - 03 - 02 - www.flightglobal.com

A Lockheed Martin and Sikorsky joint venture will expand support of more than 500 naval H-60 helicopters under a \$2 billion, five-year contract renewal awarded on 27 February, the companies say.

The latest renewal extends the Maritime Helicopter Support Company (MHSCo)'s performance-based logistics contract with the navy through 2019, as the navy transitions to a fleet of only MH-60R and MH-60S anti-submarine warfare and maritime patrol variants. As the fleet consolidates to a larger overall number of the two models, MHSCo's contract will expand to cover more than 1,700 parts compared to 1,266 under the new deal.

Although other performance-based support contracts have come under fire due to concerns about excessive profits, Lockheed and Sikorsky officials say the MHSCo deal should serve as a new model for such contracts.

Starting in 2010, MHSCo incorporated provisions that allow the government to split the profits on parts that did not need to be repaired or replaced as often as forecasted. MHSCo also has agreed to provide visibility into the company's costs to the navy officials.

"We believe that it served a very good function to demonstrate to the government that they are getting...

Eurofighter gets close-air support boost with P3E deal

2015 - 02 - 26 -

www.flightglobal.com

The four Eurofighter programme nations have signed a roughly €200 million (\$224 million) contract for a Phase 3 capability enhancement (P3E) package, intended to strengthen the type's multi-role credentials.

Although signed on the behalf of Germany, Italy, Spain and the UK, one of the main elements of the work will be the full integration of the MBDA Brimstone 2 air-to-surface missile for the latter's Royal Air Force. This activity will be worth £72 million (\$111 million) to Eurofighter partner company BAE Systems, which completed a feasibility trial linked to the enhancement late last year.

"The Brimstone 2 close air support weapon will further enhance Typhoon's effectiveness, enabling it to deploy the precision-guided weapon against high-speed, manoeuvring surface targets with low collateral damage," the UK Ministry of Defence says. Other elements of the P3E package include avionics...

Rockwell Collins enters into military avionics MRO alliance with AMMROC

2015 - 02 - 27 -

www.airforce-technology.com

Rockwell Collins has signed a strategic alliance agreement with Advanced Military Maintenance Repair and Overhaul Center (AMMROC) to provide maintenance, repair and overhaul (MRO) services for military avionics.

The agreement was signed at the recent International Defence Exhibition and Conference (IDEX) 2015 in Abu Dhabi, UAE. It covers the provision of MRO and associated logistics services, along with upgrade installations for a broad range of military aircraft.

The companies aim to target the UAE, and countries in the South Asia, Middle East and North Africa (SAMENA) region. AMMROC CEO Fahed Al Shamesi said: "Strategic partnerships such as this alliance are vital to AMMROC's long-term vision of becoming the premier MRO provider in the SAMENA region. "I am confident that the selection of Rockwell Collins as one of AMMROC's key avionics providers..."
