

## Refined MiG-35 Gets New Missiles and Avionics

2019 - 09 - 04 - [www.ainonline.com](http://www.ainonline.com)

Russia still hopes to win an Indian order for the MiG-35 multirole fighter, RAC MiG general director Ilya Tarasenko told journalists at MAKS 2019. The airshow that closed on September 1 saw Indian test pilots Group Captain BS Reddy and Wing Commander FL Roy taking seats in a MiG-35D two-seater for type familiarization flights.

India's national delegation was led by Director General of Air Operations Air Marshal Amit Dev, who visited Russia to learn more about yet another export version of the MiG-35 that was unveiled at the show. Russia is expected to offer it in the ongoing competition for 110

medium fighters for the Indian air force. According to Tarasenko, the new version features further-refined geometry of the airframe, updated Klimov RD-33MK engines with thrust at full afterburner of nine tonnes, an advanced electro-optical reconnaissance system, and an active-array (AESA) radar capable of tracking up to 30 targets simultaneously.

Additionally, RAC MiG's press release also mentions "renewed mission equipment" and "other improvements made to meet the requirements of potential foreign customers." It is also worth mentioning that a flyable example of the aircraft that was demonstrated...

## Airbus Offers Tiger Upgrade to Australia

2019 - 08 - 30 -

[www.ainonline.com](http://www.ainonline.com)

Airbus Helicopters is proposing a program to update the Australian Army's fleet of EC665 Tiger armed reconnaissance helicopters (ARH). The proposal was announced on August 30, the closing day for responses to a July 1 Request for Information by the Commonwealth of Australia for Project Land 4503.

This project seeks a replacement for the 22 Tigers currently serving with the 1st Aviation Regiment at Robertson Barracks, Darwin, Northern Territory. The RFI specifies a total of 29 aircraft: 24 to be operated at a single base (presumably Darwin) and five for training. A single squadron of 12 helicopters is required to be operational by 2026, with initial operating capability being defined by the ability to operationally deploy four helicopters, with a second squadron in service by 2028. Australia received 22 Tiger ARHs between 2004 and 2010 to answer its Project Air 87 requirement, with 18 of...

## Russian Helicopters to test upgraded Mi-35P attack helicopter

2019 - 09 - 01 -

[www.airrecognition.com](http://www.airrecognition.com)

The Russian Helicopters is holding trials of upgraded Mi-35P transport-combat helicopter. It received a new sight, a modern piloting complex and an ability to automatically track targets. Trials are ongoing at Rostvertol enterprise and have to be completed by the end of the year, the holding said. "Upgraded Mi-35P is a new stage of Mi-24 evolution which is one of the best helicopters in the world. It is an export model designed for the countries operating previous helicopter modifications.

They are mostly our partners in Asia and Africa. Rostvertol is preparing batch production of the helicopters for export," it said. "The Mil Helicopter Plant prepared design documentation for the upgrade of the helicopters to the latest requirements for attack craft. We already had a possibility to demonstrate Mi-35P to potential customers and their reaction makes us sure the helicopter will be in demand,"...
